

Dear Member,

The Government of Ontario announced late today that it is introducing a 50 per cent capacity limit for indoor public settings, that includes fitness centres and gyms, effective Sunday December 19, 2021 at 12:01am, until further notice.

In compliance with new capacity limits, MOVATI club usage will be monitored to ensure capacity limits are maintained. Existing club policies and protocols are in effect, and no further action by members is required.

GROUP FITNESS

We are updating our group fitness schedule to align class capacity with the new limits. Group Fitness reservations will continue to be required and can be made using the [MOVATI website](#) or [MOVATI App](#) 73-hours in advance of scheduled times. If you are unable to attend your reserved class, please cancel your reservation at your earliest convenience to free up space for other members.

We are working hard to update our reservation system to meet these new requirements. Please be patient as we work through these changes.

SAFETY

While in club, maintain physical distancing as required by your local public health unit. A face mask covering your nose and mouth is required upon club entry and while walking around the club. However, masks may be removed at your discretion while engaged in fitness activities. Please use the cleaning supplies at sanitation stations throughout the club to wipe down equipment before and after use.

If you feel symptoms of COVID-19, consult your local health authorities or health care provider, and stay home. An [Ontario Government COVID-19 screening questionnaire](#) is available by [clicking here](#).

Thank you for your understanding and support. Please stay well and keep safe.

We wish you a Happy and Safe holiday season.

Sincerely,

Your MOVATI Athletic Team

To enter any MOVATI Athletic location you will be required to show a physical or digital copy of your vaccination receipt, along with Government-issued ID. For more information about obtaining your vaccination [click here](#).
